RAIDS

Rifle Actuated IED Defeat System (RAIDS) is the world's first *reusable* rifle launched grappling hook system designed for live penetrator ammo.

RAIDS is specifically designed to be launched from the standard M4/M16 service rifles utilizing all 5.56 NATO/.223 M855 ammunition **including M855A1**.

The system is designed to designate and defeat Command Wires, Pressure Pads, and Tripwires and provide remote delivery of other payloads. Replaceable bullet traps give the operator ultimate flexibility with 10+ shots with **live** penetrator ammo. **NO BLANKS !**

RAIDS is now offered as a complete tactical kit for dismounted troops, SWAT, Bomb Disposal Units, and other weapon delivered payloads. The kit provides the lowest cost-per-shot and is packaged with everything the operator needs to engage threats at range:

- 1 Reusable Delivery Tube with High-Visibility End Cap
- 10 Replaceable Single Use Bullet Traps
- 2 Medium Nylon 3" Tines
- 2 Medium Stainless Steel 3" Tines
- 2 Large configurable Stainless Steel 5" Tines
- 300' of Neon Orange 550 Cord
- 50' of Red 550 Cord
- 1 Foldout 3 Compartment MOLLE Bag with Shoulder Strap
- 1 Ramrod
- 1 Bore Brush
- 1 Cord "S" Winding Tool
- 1 Cord Pull Handle
- 1 Operators Manual/ Instructions
