

Cardinal Scientific, Inc. _____

SAMSON RACK

Cardinal Scientific's Samson Rack is a Custom Modular Electronics Rack System that is an extreme duty modular solution for any EIA Rack mountable equipment. The racks can be populated with a range of equipment including:

- Network devices
- Computers
- Phone systems
- Surveillance equipment
- Monitors
- Power Supplies
- Equipment Drawer Slides
- Keyboards

The threaded cube and ear design allows for modular flexibility and extreme duty versatility. The threaded cube can accept:

- Hooks
- Wheels
- Lift Eyes
- Feet
- Shock Isolators
- Handles

CSI's Samson Rack is currently used by the U.S. Military and is available in a variety of finishes. CSI's Samson Rack is proudly MADE IN THE USA.
