

BLACKOUT BOX

EMI Shielding Gasket

Provides shielding against wide frequency band

Draw Latch

Provides regulated sealing force to ensure uniform seal
key lock available

Key Features

- RoHS compliant TCS EMI Shielding Gasket provides broadband EMI/RFI shielding [80 dB H-Field (100kHz); 125 dB E-Field (10MHz), 100 dB P-Field (1GHz)]
- Customizable, closed cell polyethylene foam interior provides protection to stored devices
- Heavy-duty 0.125 inch 5052-H32 aluminum one-piece welded construction
- Non-skid polyethylene exterior foam base inhibits sliding movement along smooth surfaces.
- Powder coated finish over chromate conversion coating treated aluminum. Available in any color.
